the contention of film and the american presidency is that over the twentieth century the cinema has been a silent partner in setting the parameters of what we might call the presidential imaginary this volume surveys the partnership in its longevity placing stress on especially iconic presidents such as lincoln and fdr the contributions to this collection probe the rich interactions between these high institutions of culture and politics hollywood and the presidency and argue that not only did hollywood acting become an idiom for presidential style but that hollywood early on understood its own identity through the presidency s peculiar mix of national epic and unified protagonist additionally they contend that studios often made their films to sway political outcomes that the performance of presidential personae has been constrained by the kinds of bodies for so long white and male that have occupied the office such that presidential embodiment obscures the body politic and that

hollywood and the presidency may finally be nothing more than two privileged figures of media age power

the american presidency is the most powerful political office in the world but this impressive statement serves only to raise a whole series of fundamental questions what is the scope of presidential powers and what are its limits can the president use all the authority of his office or is that authority more formal than effective does the presidency have sufficient power to meet today s needs or do the problems of the modern age demand a more powerful executive is there a danger of dictatorship in the growth of political authority or will the presidency remain an office of constitutional democratic leadership this book explores such questions by presenting a wide range of views on presidential power from a variety of sources original supporters and opponents of the office presidents themselves supreme court decisions and professional students of the presidency

arguing that the presidency is not defined by the constitution which doesn t use the term but by what presidents say and how they say it deeds done in words has been the definitive book on presidential rhetoric for more than a decade in presidents creating the presidency karlyn kohrs campbell and kathleen hall jamieson expand and recast their classic work for the youtube era revealing how our media saturated age has transformed the ever evolving rhetorical strategies that presidents use to increase and sustain the executive branch s powers identifying the primary genres of presidential oratory campbell and jamieson add new analyses of signing statements and national eulogies to their explorations of inaugural addresses veto messages and war rhetoric among other types they explain that in some of these genres such as farewell addresses intended to leave an individual legacy the president acts alone in others such as state of the union speeches that urge a legislative agenda the executive solicits reaction from the other branches updating their coverage through the current administration the authors contend that many of these rhetorical acts extend over time george w bush s post september 11 statements for example culminated in a speech at the national cathedral and became a touchstone for his subsequent address to congress for two centuries presidential discourse has both succeeded brilliantly and failed miserably at satisfying the demands of audience occasion and institution and in the process it has increased and depleted political capital by enhancing presidential authority or ceding it to the other branches illuminating the reasons behind each outcome campbell and jamieson draw an authoritative picture of how presidents have used rhetoric to shape the presidency and how they continue to re create it
